I. GENERAL REGULATIONS

The present valid WKO Rules G Judo from 01st jan 2018 and the anti-doping-code of the DBS applies.

Competitors: women and male **Judoka with mental handicap** in the **Performance-class 1 and 2/3** (evaluation-scale of the DBS), with valid sport health certificate (see protection-regulations), Minimum graduation: 8. Kyu (white-yellow belt), German competitors require a valid DBS-starting-passport or valid DJB Passport. In the Performance-class 2/3 after the DBS-game-rules 2 wrestle

Sportive management:

Dr. Wolfgang Janko, acting departmental chief, department Judo in the DBS
Alwin Brenner, commissioner of performance, department G-Judo in the DBS
Günter Geist head department Judo in the DBS

Weight-classes:

Women (age-classes 2002 and older):

-48 kg, -52 kg, -57 kg, -63 kg, -70 kg, -78 kg, +78 kg

Men (age-classes 2002 and older):

-60 kg, -66 kg, -73 kg, -81 kg, -90 kg, -100 kg, +100 kg

Starts in different age-classes are not allowed.

Contest-mode: up to 5 competitors per weight-class: pool-system „round Robin“, only 2 per weight-class: best of 3 fights.

from 6 competitors per weight-class on: „double-K.O.-system“

Prohibited actions:

Prohibition of all lever- Shime- and Kansetsu - waza,

Match-duration: 3 minutes of effectively action-time

Number of mats: 2 mats

II. AUTHORIZATION of PARTICIPATION

The right to participate belongs to all sport-fit (sport health certificate must not be older than 12 month!) members of clubs (and starting-communities) of the regional associations of the DBS, the related special branch associations of the DBS (if these do not promote their own German Championships) and (at International German Championships) the members of the invited foreign paralympic committees.

Persons, who suffer from disease (in addition to their handicap), which may grow worse by taking part in the tournament, are expelled from participation in German Championships. This as a rule applies to persons, with implants (e.g. artificial joints, cardiac pacemaker, and so on) or who got over a cardiac infarction.

Exceptions have to be granted by the DBS – association-physician before entering for German Championships (this is independent of the sport health certificate by the attending physician, which – as said before – must not be older than 12 month! Details may be seen in the paper for the achievement sport fitness of the DBS).

For all sports(women) belonging to the domain of the DBS and its related special branch associations, that club will be registered for authorization of participation, which is entered for the Championship.

The promoter reserves the right to lay age- or weigh-classes together, in case of too small number of competitors (*Annotation: fundamentally at paralympic kind of sport, the international rules of classification apply*).

III. CLASSIFICATION

International classification takes precedence. If there is a difference between national and international classification, international one always applies. An alternation of the international classification will only be acknowledged, if it was made by a licensed classifier and confirmed in writing. Is there no international classification submitted, the national classification of the responsible DBS – association-physician applies.

Only classified Sports(women) have an authorization of participation (please compare to list of classification)!

(Annotation: every DBS – section/special branch is engaged to make a list of their competitors in (international) German Championships and to publish it together with the invitation!

Sports(women), who are **not** listed in the official list of classification can be entered, if the entry contains a completely filled in evaluation scale of the DBS for people with mental handicap.

IV. PROTECTION / SAFETY REGULATIONS

1. With submitting the entry, the clubs and starting communities ensure the match-ability of the entered competitors.
2. All entered competitors have to be in possession of a **valid sport health certificate and a starting passport**.
3. The **sport health certificates** have to be hand over (together per club) to the match office for checking before the beginning of the event. The last medical examination in the sport health certificate must not be past longer than 6 month (counted from the last day of the competition).

For competitors, who do not fulfill these regulations, there exists no authorization of participation.

Foreign competitors have to show a comparable medical admission of their national paralympic committee to the match office.

V. DOPING

Doping is permitted by the regulations of the DBS. Validity belongs to the anti-doping-code of the DBS and regulation of the WADA, of the IPC, of the NADA and, due to international events, the regulations of the concerned international sport associations special branch. Doping controls may be enforced in a random sampling way. The referee of Anti-doping comes to take the decision for this.

With submitting the entry for the event, the sports(wo)men accepts the anti-doping-regulation of the DBS. If there are medicines prescribed and taken, a written down proof (= medical certificate) about these has to be carried with and to be presented if controlled. If these medicines are listed in the current prohibition-list of the WADA, a medical exception-grant (TUE) has to be carried with and to be presented, too. In case of a positive result the sports(wo)men may be punished because of a violation against the anti-doping-regulation, if this indication-proof is missing.

VI. LIABILITY

The DBS and its authorities will only be liable for damages or harms within the limits and the extent of the available liability insurance protection. Liability for damages or harms beyond this protection is explicitly out of question. The effected insurance contract may be inspected at the administration-office of the DBS at any time. Claims to sporting-accident insurance contracts of the regional sport associations of the DBS, are not affected by this limitation of liability.
